—The magnetism that draws innocent childhood to some men was strikingly displayed in the conversation of a little girl with a lady friend of ours last Sabbath. Said the little girl: "O, I'm so anxious to have our school commence that I can hardly wait for Monday to come, and I want to be in Prof. Alexander's room so much I don't know what to do. He was at our house the other night and talked to me just like a little boy or girl would. Why, I wasn't a bit afraid of him! I tell you, Mrs. A., I forgot myself and talked back to him just as if he was a little boy." The Hartford people indeed found a Moses to lead their little ones when they secured the services of this wonderful man.

—The report that boarding for students attending Hartford College was high and hard to obtain, is erroneous in each instance. There are plenty of good boarding houses at rates from \$2 to \$3. Several contracts have been made in the last day or two at \$2 per week.

—The Louisville Industrial Exposition will open September 7, 1880, and close October 23, 1880, and promises to be exceptionally attractive. The building will be illuminated by fifteen grand electric lights. Among the attractions will be "that wonder of the ages," the restoration of the great hairy Siberian mammoth, 12 feet high and 26 feet long. Everybody should attend this great exposition.

He strives to meet the demands of the traveling public, and deserves their patronage.

—A joke, perpetrated in the Teachers' Institute by our old friend Mr. Hawkins, may call up a smile with those acquainted with his humorous manner of disposing of a subject of which he had grown tired. Quite a warm contest as between a couple of the professors (?) as to the object of a verb in a certain sentence was very humorously carried by his pretending to see the whole thing in a different light; some one questioned his accuracy, when he declared his intention to leave the matter to the house. While they were waiting for him to take the sense of the house as to which was right, he quietly took his seat as though he were done. "I thought," said the Commissioner, "you were going to leave it to the house." "I have, sir; there it is on the blackboard—the house can do as they please with it, was his reply.

—W. H. Williams & Son have just received a full stock of staple groceries, and respectfully invite every person in Ohio county to call and see the largeness they are offering.

—Mrs. Lucy Field, wife of Wm. Field, deceased, died in Owensboro last Sunday of paralysis. She was in her 8th year. Her remains were taken to the old home near Buford on Monday and interred.

—A boy, claiming to be from Morgantown, passed through this part of the county on his way to Point Pleasant last Monday. He is about 13 years old, and the impression is that he is running off from his parents.

—The colored folks in the vicinity of Jackson's old mill, under the superintendency of David Thomas, will give a grand barbecue at that place next Saturday. Speaking and eating, darning and darning will be the principal attractions of the day.

—Mr. H. D. McHenry, Jr., a recent graduate of the Kentucky Military Institute, will form the students of Hartford College into a military company. They will be armed by the State. Mr. McHenry is very proficient in drill, and we have no doubt his company will make a fine display.

—Mr. S. M. Eversly killed a snake with white and copper colored spots ordinary size and had a pocket in its body back of its head a short distance. The next day and near the same place he killed a very large rattlesnake with 12 rattles. That's not a good place for snakes either.

—The Teachers' Institute, which met here last week, was one of profit as well as pleasure. The success of the Institute is due, in a great degree, to the efficiency of Prof. S. A. Chambers, of Elizabethtown, who conducted the exercises of the same. A synopsis of the proceedings appears in another column of this issue.

—Mr. Berry, who will deliver the oration at the Hartford College Tuesday evening, was known in the past legislature as the "silver-tongued orator." His address is arranged for the evening to coincide those living a distance from town to attend. The college building will be illuminated and a grand time is expected.

—But four days more and vacation, with its joys and pleasures, will have died. Four days more and the many hundreds of little boys and girls, will lay aside their toys and flee to the school room. The young lady or young gentleman who have been visiting their country cousins, seeking horseback rides, gathering wild flowers, &c., will return to take their accustomed seats in the school room.

—The Supreme Court of the State of New York has decided that J. C. Ayer & Co., of Lowell, have the sole right to use the words "Cherry Pectoral" for a medicine, and has issued an injunction against F. V. Rushton, of New York City, for selling Rushton's Cherry Pectoral or Cherry Pectoral Lozenges, or any other use of the name to deceive the public. The decision of the high court includes all dealers who sell any similar articles. —Part Jefferson (L. L.) Leader.

—The Eighth Annual Industrial Exposition will open at Louisville Sept. 7 and close Oct. 23. The show this year will be equal to that of any of the preceding years, and probably superior. All our readers will probably visit this great exhibition this year. To those who do, we will suggest that Alexander's Hotel is one of the most pleasant places to stop during your sojourn there. It is centrally located, is on the principal street of the city, is well furnished in every respect, the bill of fare is excellent, the proprietors and clerks are accommodating and polite, and you feel at home at this popular house. It is located on Market near Seventh street.

—We have ordered a new Subscription book, and as soon as received we will transfer the names of all of our subscribers who have paid up, but the names of those who have paid us in broken promises will be dropped and not again entered on our books until the old score is settled, and in future our rates will be strictly cash in advance for all subscriptions. We cannot live on wind and water as Dr. Tanner claims to have done; it takes something more substantial for us and our workmen, and those substantial cost money, and cannot be had without it. We are compelled to have money for our work. Please do not ask us for credit again. We are determined to adhere to the cash plan from this out.

—We will pay the highest market price for 50 dozen chickens delivered at once. Bring them in.

The bride is a native of this county and has a host of friends and relatives here who wish her untold happiness. She is a sister of our popular druggist, J. W.
